

40mm Push Fit Coupler

Installation is fast and easy, no heat, glue or tools are required. Simply push the duct ends into the coupler for a locked and air-sealed assembly. The compact profile of the Coupler is well suited for use in pull boxes, vaults, or other limited-access areas such as narrow trenches. No metal is used hence it provides excellent corrosion resistance in buried or encased applications and also has desirable dielectric properties. The COUPLER is non-transparent and is UV stabilized.

Key Features are :

1. No heat or tool required.
2. Push the ducts and it is air sealed ready.
3. Corrosion Free
4. UV Stabilized
5. No metal part used.
6. Leak proof joints ensures safe cable blowing operation.
7. Our Couplers are tested before every dispatch and it can handle a pressure of 20 kg/cm² and a weight of 300 Kg.
